POS Printer Driver

1、Operating Environment

This software supports the following operating systems:

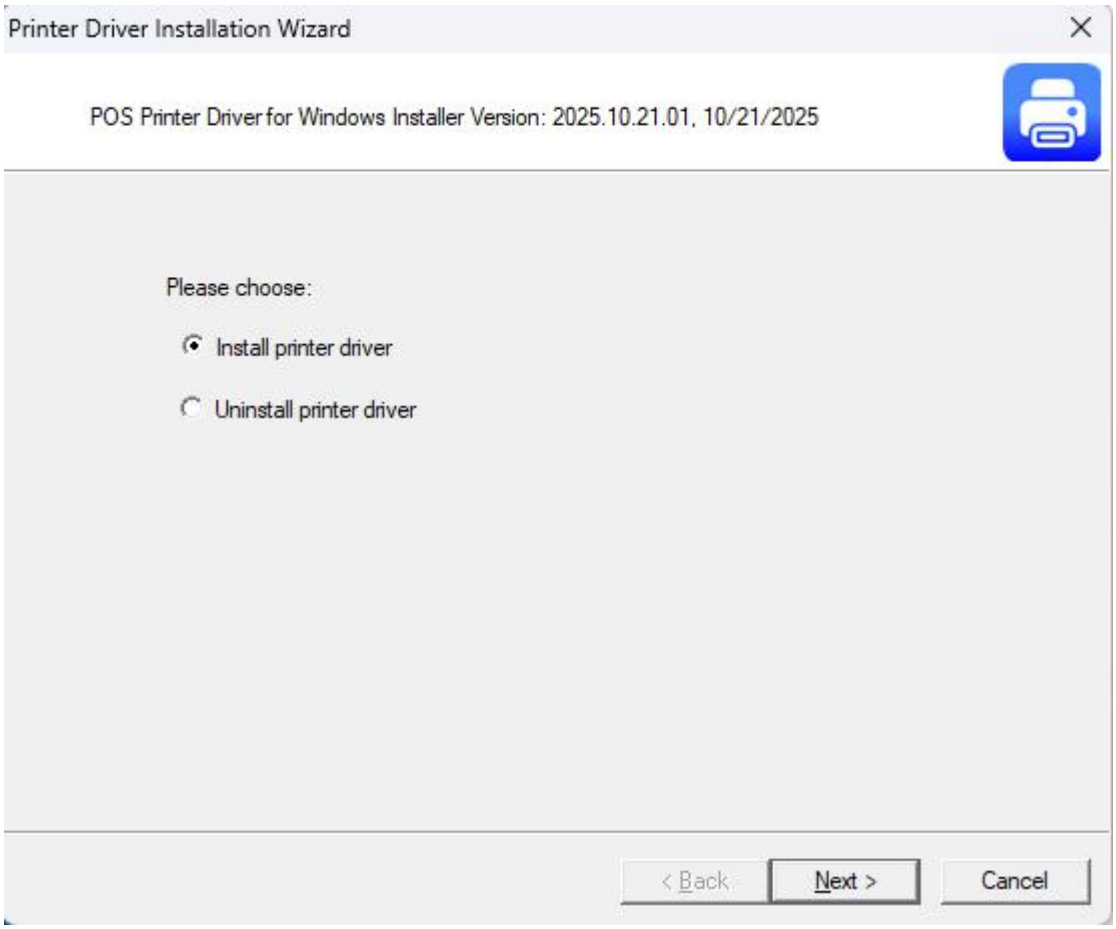

- Windows 11
- Windows 10
- Windows 8
- Windows 7

2、Driver Installation

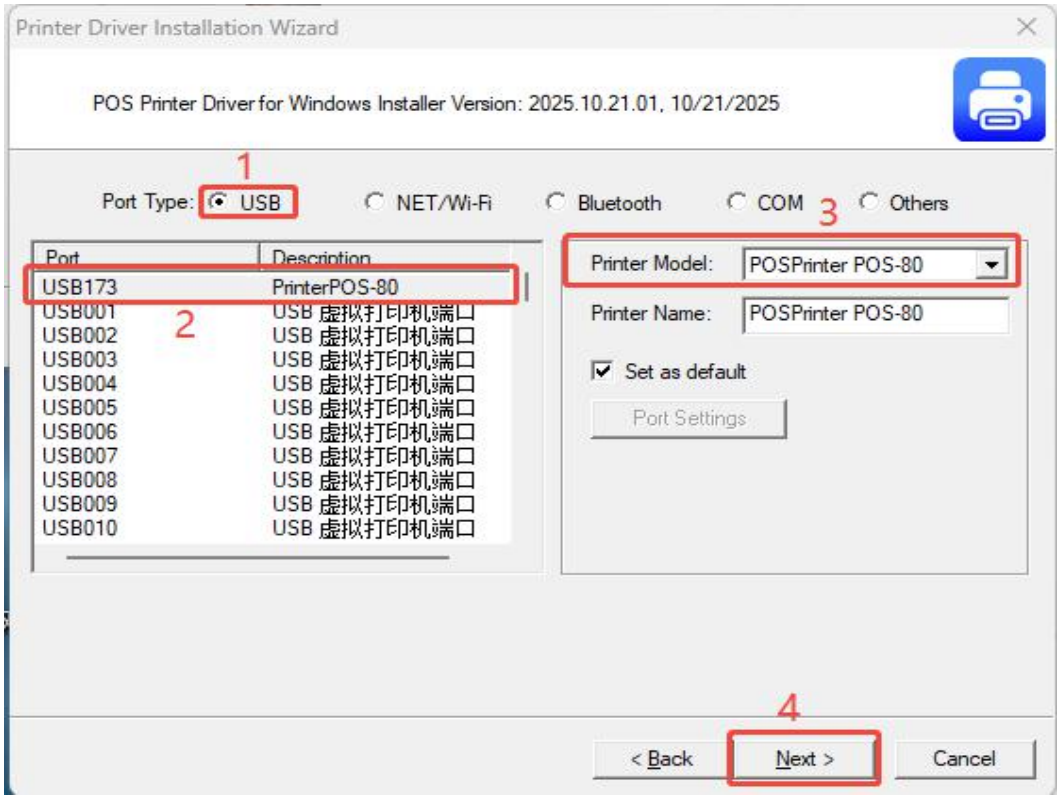

2.1、Double-click the .exe file to start the installation

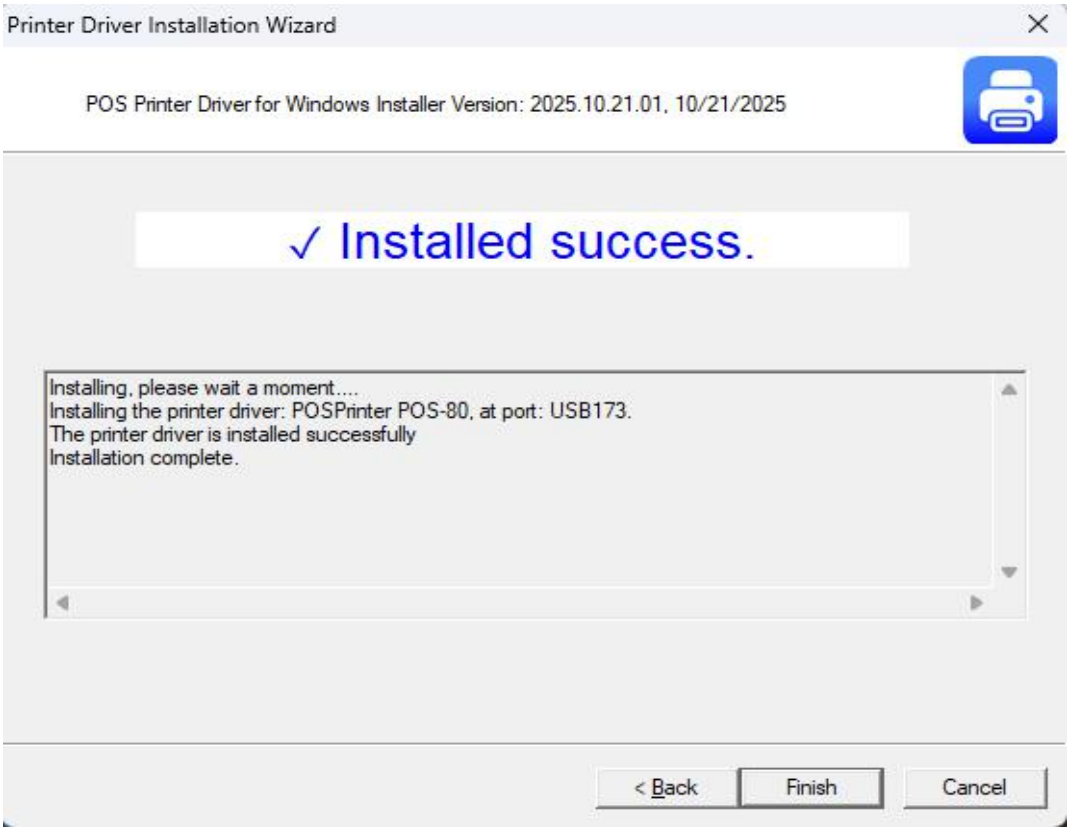

2.2 In the driver installation wizard, select "Install Printer Driver" and click "Next"

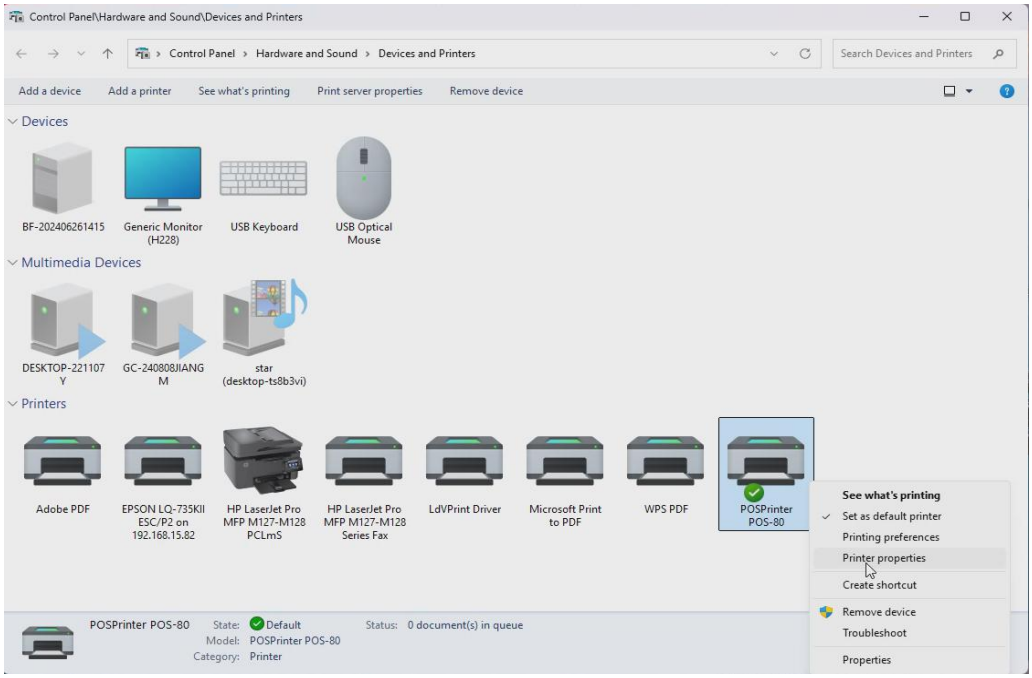

2.3 Select the port and model, then click "Next"

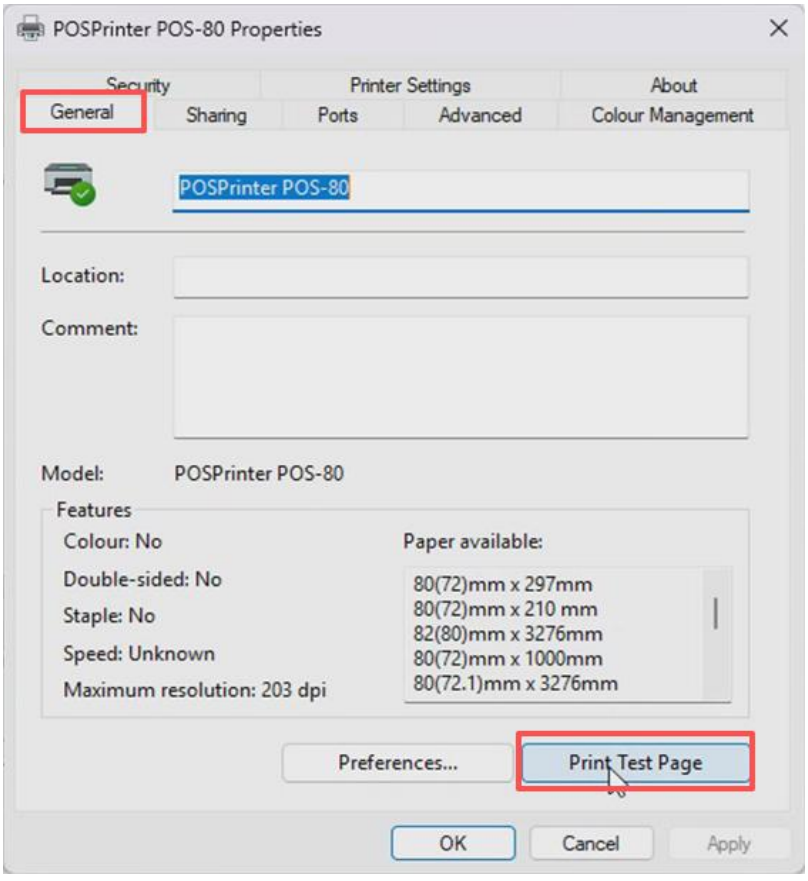

2.4 Installation successful, click "Finish"

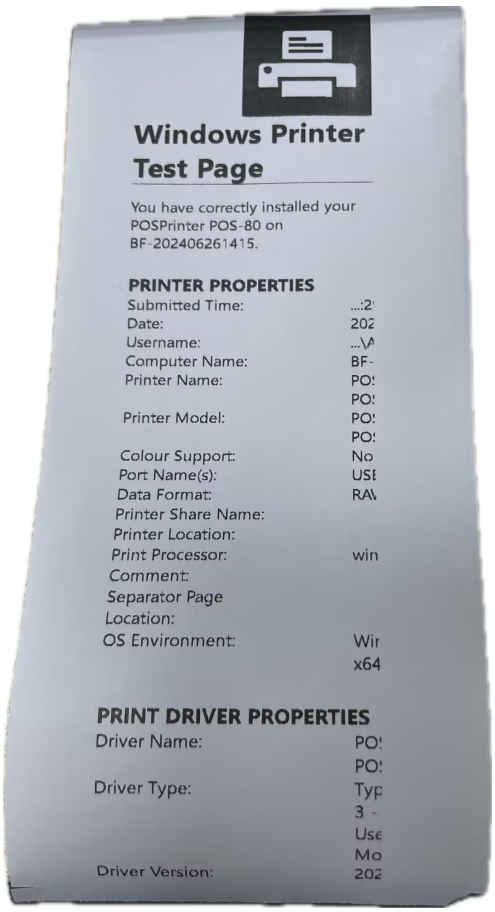

2.5 Open Control Panel - Devices and Printers, right-click the printer and select "Printer Properties"

2.6 Select "General" and click "Print Test Page"

2.7 The printer will print the test page normally if it works properly.

Windows Printer Test Page

You have correctly installed your POSPrinter POS-80 on BF-202406261415.
